Contents

No. 1 (February 1993)

ROBIN, ALINE *and* D'ARI, RICHARD. Expression of the *Escherichia coli ftsZ* gene: trials and tribulations of gene fusion studies 1

LEVITAN, MAX *and* SCHEFFER, SONJA. Studies of linkage in populations. X. Altitude and autosomal gene arrangements in *Drosophila robusta* 9

BEE, C. A. *and* CLOSE, R. L. Mitochondrial DNA analysis of introgression between adjacent taxa of rock-wallabies, *Petrogale* species (Marsupialia: Macropodidae) 21

CHARLESWORTH, D.; MORGAN, M. T. *and* CHARLESWORTH, B. Mutation accumulation in finite outbreeding and inbreeding populations 39

BARTON, N. H. *and* ROUHANI, S. Adaptation and the 'shifting balance' 57

BOOK REVIEWS 75

Our Genetic Future: The Science and Ethics of Genetic Technology. Report of BMA Working Party. ERIC REEVE

Human Cytogenetics: A Practical Approach Vol II: Malignancy and Acquired Abnormalities. *D. E. Rooney and B. H. Czepulskowski eds.* JONATHAN WATERS

Introduction to Theoretical Population Genetics *by Thomas Nagylaki.* REINHARD BURGER

New Gene and Karyotype Standards: Livestock, Horse, Fish *by various authors.* ERIC REEVE

BOOKS RECEIVED 79

No. 2 (April 1993)

VAURY, CHANTAL; PÉLISSON, ALAIN; ABAD, PIERRE *and* BUCHETON, ALAIN. Properties of transgenic strains of *Drosophila melanogaster* containing I transposable elements from *Drosophila teissieri* 81

AGULNIK, SERGEI I.; SABANTSEV, IGOR D.; ORLOVA, GALINA V. *and* RUVINSKY, ANATOLY O. Meiotic drive on aberrant chromosome 1 in the mouse is determined by a linked distorter 91

AGULNIK, SERGEI I.; SABANTSEV, IGOR D. *and* RUVINSKY, ANATOLY O. Effect of sperm genotype on chromatid segregation in female mice heterozygous for aberrant chromosome 1 97

HASTINGS, IAN M.; BOOTLAND, LORNA H. *and* HILL, WILLIAM G. The role of growth hormone in lines of mice divergently selected on body weight 101

LÓPEZ, MARÍA A. *and* LÓPEZ-FANJUL, CARLOS. Spontaneous mutation for a quantitative trait in *Drosophila melanogaster*. I. Response to artificial selection 107

LÓPEZ, MARÍA A. *and* LÓPEZ-FANJUL, CARLOS. Spontaneous mutation for a quantitative trait in *Drosophila melanogaster*. II. Distribution of mutant effects on the trait and fitness 117

ROUHANI, S. *and* BARTON, N. H. Group selection and the 'shifting balance' 127

Abstracts of papers presented at the third Mammalian Genetics and Development Workshop held at Birkbeck College, Malet Street, London on 4–6 November 1992 137

BOOK REVIEWS 151

Genetics and Conservation of Rare Plants. *D. A. Falk and K. E. Holsinger eds.* DAVID INGRAM

Human Cytogenetics: A Practical Approach Volume I: Constitutional Analysis: (second edition). *D. E. Rooney and B. H. Czepulskowski eds.* PATRICIA M. ELLIS

Mechanisms of Eukaryotic DNA Recombination. *Max E. Gottesman and Henry J. Vogel eds.* DAVID R. F. LEACH
Autoimmunity *by W. Ollier and D. P. M. Simmons.* C. J. INCHLEY
Cytokines *by M. J. Clemens.* C. J. INCHLEY
BOOKS RECEIVED 157

No. 3 (June 1993)

ARADHYA, K. M.; MUELLER-DOMBOIS, D. *and* RANKER, T. A. Genetic structure and differentiation in *Metrosideros polymorpha* (Myrtaceae) along altitudinal gradients in Maui, Hawaii 159
BAZIN, C.; WILLIAMS, J.; BELL, J. *and* SILBER, J. A deleted *hobo* element is involved in the unstable thermosensitive vg^{al} mutation at the *vestigial* locus in *Drosophila melanogaster* 171
LAI, CHAOQIANG *and* MACKAY, TRUDY, F. C. Mapping and characterization of *p*-element-induced mutations at quantitative trait loci in *Drosophila melanogaster* 177
KANEKO, MAKI; SATTA, YOKO; MATSUURA, ETSUKO T. *and* CHIGUSA, SADAO I. Evolution of the mitochondrial ATPase 6 gene in *Drosophila:* unusually high level of polymorphism in *D. melanogaster* 195
CHARLESWORTH, BRIAN. Directional selection and the evolution of sex and recombination 205
STEPHAN, WOLFGANG; CHAO, LIN *and* SMALE, JOANNE GUNA. The advance of Miller's ratchet in a haploid asexual population: approximate solutions based on diffusion theory 225
BOOK REVIEWS 233
DNA on Trial: Genetic Identification and Criminal Justice. *Paul R. Billings ed.* ERIC REEVE
In Situ Hybridization: A Practical Approach. *D. G. Wilkinson ed.* DUNCAN DAVIDSON
The Grass Genera of the World *by L. Watson aand M. J. Dallwitz* P. M. SMITH
Genetic Conservation of Domestic Livestock. Vol. 2. *Lawrence Alderson and Imre Bodo eds.* WILLIAM G. HILL
Analysis of Human Genetic Linkage: 2nd revised edition *by Jurg Ott.* J. BRUCE WALSH
Genetic Diversity among Jews: Diseases and Markers at the DNA Level. *B. Bonne-Tamir and A. Adam eds.* D. J. H. BROCK
